MBA Background

The Monash Business Awards were established in 1994 by a group of private sector and local government representatives to promote success and excellence in business by recognising significant achievements and innovation in local firms.

Although the primary purpose of the Awards program is to identify, acknowledge and promote outstanding businesses, there are other benefits to our business community.

A business breakfast/lunch event is held every second month featuring a guest speaker and the announcement of the award nominees. These events are recognised as a fantastic opportunity for the local business community to network and form cooperative alliances, and for nominees to promote their success. The guest keynote speaker presents on a topic of interest at each event, adding to the value of the event to our business community.

Any organisation within the City of Monash can be nominated for an award.
